

ROASTER FOAM

Nonfood Compounds
Program Listed (A8)
#135709

ROASTER FOAM is a **SUPER CONCENTRATE** formulated especially for cleaning stainless steel conveyor belts on nut roasters and related equipment. Makes easy work of applying foam to roaster belts when applied with the **FOAM MASTER** through the “**Astro Engineered**” foam bar. This foam bar design makes it possible to apply a rich clinging foam to the belt that will remain in place long enough to get the job done! **ROASTER FOAM** is a **SELF-FOAMING** product. No expensive foam additives needed to make a rich, clinging foam. Removes carbonized grease residue, smoke deposits, burned on food soils, fats, oils and greases from stainless steel food processing equipment. **ROASTER FOAM** can be effectively used in one of the many foamers available from **Astro Products** for foam cleaning of equipment such as: nut blanching and roasting equipment, smokehouses, commercial ovens, kettles and other processing equipment. Use as a soak tank cleaner for soaking heavily soiled parts or as a boil out compound.

Applications: Roasting and blanching equipment, ovens, kettles, soak tanks

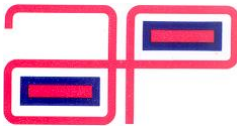

Benefits: NSF registered formulation, #135709
(A8, degreaser, carbon removal)
High foaming powerful cleaning action
Highly concentrated for diverse uses
Rinses cleanly with no streaking or spotting
No solvents, VOC's, organic or inorganic phosphorus

Use levels: Light soils 2 to 4 oz. or heavy soils 8 to 12 oz. per gallon in foamers, 6 to 8 oz. per gallon for soak tanks. Potable water rinse required.

Specifications: Appearance: Amber colored thin liquid
pH: 13 – 14 as is
Specific gravity: 1.43 - 1.45

Cautions: Safe to use on most surfaces except aluminum, spot check if uncertain. Product is strongly caustic, use proper personnel protection when using.
