Clean your trays without harsh
caustic and chlorine chemicals

"Advanced Cleaning Concepts"

Gold Chick Tray Wash

Gold Chick is a premium tray wash that is unique and specially designed for low-foam cleaning action and quick soil penetration. This highly concentrated product is safe and biodegradable. **Gold Chick** penetrates and works fast to soften and suspend soil so that it can be easily rinsed away. **Gold Chick** is a highly alkaline solution (pH 12.3) that will clean all types of trays and help keep the inside of your tray wash machine clean. **Gold Chick** may be used on trays, chick boxes, and buggies. With **Gold Chick** it only takes a little to do so much, thus reducing your cleaning cost.
