

HOT FOAM

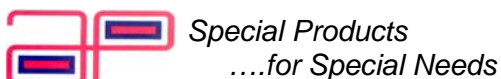

SUPER CONCENTRATE CAUSTIC CLEANER

HOT FOAM is a powerful concentrate formulated especially for cleaning carbonized food soils from food processing equipment. Especially effective on nut roasting equipment, fryers, smokehouses and related equipment.

This powerful formula removes carbonized grease residue, smoke deposits, burned on food soils, fats, oils and greases from food processing equipment.

HOT FOAM works well with all types of foaming equipment. Foamers that use compressed air (such as the **FOAM MASTER** or "**ELMO**" foamers from Astro Products, Inc.) produce the most dense foam.

USDA APPROVED for use in soak tanks or with steam or mechanical cleaning devices in all departments of official establishments operating under the Federal meat, poultry, shell egg grading, and egg products inspection program.

Astro Products, Inc. P.O. Box 964 Fitzgerald, GA 31750
