

# MASTER FOAM

## FOAMING CONCENTRATE

---

**MASTER FOAM** is a powerful corrosion inhibited foaming alkaline cleaner for chemically removing all types of soils from walls, floors and equipment in food processing plants. Provides outstanding cleaning action with excellent streak free rinsing to leave a bright clean surface with no chemical residue.

**MASTER FOAM** is non-toxic, non-corrosive, non-flammable, non-caustic, and completely safe on all plastic, galvanized steel, and aluminum surfaces. Special additives fight hard water ions and promote rapid cleaning in both hard and soft water. Excellent for use on fiberglass and plastic surfaces that are normally very difficult to clean.

**MASTER FOAM** works well with all types of foaming equipment. Foamers that use compressed air (such as the **FOAM MASTER** or "**ELMO**" foamers from Astro Products) produce the most dense foam.

**FOR USE BY:** Poultry plants, Meat packing plants, Seafood processors, Vegetable processors, Bakeries, Nut processors, Confectioners...

Call 800-637-7210 today to arrange a free trial in your plant.
