

MAX FOAM

FOAMING CAUSTIC CLEANER

Get maximum cleaning power from Max Foam! This concentrated foaming caustic cleaner is designed to deliver maximum wetting power, maximum foaming power and maximum attack on grease and protein.

Max Foam is formulated with a blend of high performance surfactants for maximum wetting and penetrating power; powerful foam boosters for maximum foaming power; and a blend of water conditioning ingredients for maximum cleaning power in hard water.

Use Max Foam to remove carbonized food soils from smokehouses, trolleys, kettles and related equipment. May also be used for routine foam cleaning of all stainless steel processing equipment. This powerful formula quickly dissolves protein so it can be easily removed.

Max Foam generates profuse foam in all types of foaming equipment.

CAUTION: ALWAYS wear eye protection, rubber gloves and protective clothing when handling this concentrated product.

Do not use on aluminum or other soft metals such as zinc. Do not use on painted surfaces.

FOR USE BY: Meat packing plants, poultry plants and other food processors that need to remove difficult food soils.
