

FOAMIT

Nonfood Compounds
Program Listed (A1)
#148346

FOAMIT is a highly concentrated foaming cleaner that is designed to remove stubborn and heavy soils such as fats, oils, and greases. This powerful cleaner is biodegradable and very effective with emulsifiers, chelating agents, corrosion inhibitors and grease dissolving chemicals for rapid cleaning. May be applied with a foamer or by hand with scrub brush or nylon scouring pad. Can also be used to make fresh solutions of a caustic chlorinated foam by metering into a foamer with **Astro Max #1** and sodium hypochlorite. Your Astro representative will assist you with choosing the proper metering device.

FOAMIT can also be used with sodium hypochlorite to make a less caustic chlorinated foaming cleaner. Use the proper metering device to dispense sodium hypochlorite and **FOAMIT** into your foamer. Your Astro representative will assist you in determining the right mixture for your application.

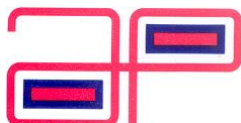

Applications: All purpose cleaner for use in meat & poultry plants, hatcheries, nut processing plants, bakeries, beverage processors and more.

Benefits: High foaming powerful cleaning action
Highly concentrated for diverse uses
Rinses cleanly with no streaking or spotting
No solvents or VOC's
No organic or inorganic phosphorus

Use levels: Apply with a foam machine at 2 - 4 oz per gallon for light applications, 6 - 12 oz per gallon for heavily soiled equipment. May also be applied with scrub brush or nylon scouring pad. Makes an excellent "scrub" soap for processing equipment. Potable water rinse required.

Specifications: Appearance: Amber colored viscous liquid
pH: 7 – 7.5 as is
Specific gravity: 1.04

Cautions: Safe for use on all surfaces - spot check if uncertain. Product can cause skin and eye irritation, use proper personnel protection when using.
