

QUICK WIPE

Nonfood Compounds
Program Listed (P1)
#123071

SPRAY AND WIPE CLEANER – NO RINSE REQUIRED!

QUICK WIPE is a special formula for use on equipment where no rinse is possible. A potable water rinse is not required following the use of this product on hard surfaces provided that the surfaces are adequately wiped down before contact with food. No visible residue should remain that could adulterate or have a deleterious effect on edible products.

This lightly alkaline product is excellent for removal of light soils from packaging equipment in snack food plants and other facilities where critical cleaning must be done around sensitive electronic equipment.

QUICK WIPE is non-toxic, non-corrosive, non-flammable and completely safe for use on all surfaces. Don't take a chance on ruining sensitive electronic equipment by using chemicals that require rinsing with water. Use **QUICK WIPE** to clean these areas quickly and easily – simply spray on and wipe off!

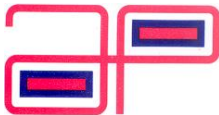

Applications: Packaging machines, scales, food preparation surfaces

Benefits: NSF registered formulation, #123071 (P1, miscellaneous cleaners)
Powerful cleaning action
Dries cleanly with no streaking or spotting
No rinsing required
